WE CARRY, WE CARE.

NOTICE

Re: PH Guidelines, IMO Requirement on Verified Gross Mass

Dear VALUED CUSTOMERS:

We wish to take this opportunity to express our appreciation for your continued patronage to **WAN HAI LINES**.

The following are the adopted guidelines on SOLAS-VGM.

1. Philippine Ports Authority (PPA) affirms that the weight taken by the port operator shall be the source of information for the VGM effective July 1, 2016 under PPA Administrative Order No.04-2016.
(Reference: <http://bit.ly/2a0N9qE>)
2. Port operator shall then supply the VGM information to the carrier via EDI/OPTOS.
3. No need for shippers to submit their signed VGM except Cebu port.
4. Cebu Port Authority (CPA) requires shipper to submit duly signed VGM form to shipping lines prior to gate in. Weight obtained by OPASCOR shall be the validated VGM and shall post VGM sticker on the container duly signed by the shipper or his/her authorized representative.
5. Wan Hai will follow shipper's cargo weight declaration for export Bill of Ladings (BLs) on the premise that the gross weight (tare and cargo) will not exceed the weight limitation of the containers.
6. In case container found overload, port operator will immediately alert the shipping lines and shall take the same action to their shippers. Please note that Wan Hai will not accept overweight container to be loaded on vessel.
